

## **CSDAA TRAINING AND INDUCTION MANUAL FOR CSDAA MEMBERS ONLY**

### **The CSDAA Training system**

The Concrete Sawing & Drilling Association Australia ONLY comprehensive *Training & Induction* manual is a safety system designed exclusively for our industry.

The 'System' is presented in two parts:

- a) The course in Induction & Safety for Concrete Cutting
- b) Operations & Training Procedures

### **Five good reasons why the CSDAA Training System will benefit your company**

- Give your employees the comprehensive training they need to learn and keep up to date with today's technology and best practices
- You will provide your employees with safe work practices to assist in the minimisation of injury and to maximise productivity
- Provide a career path for employees in your company, minimising turnover.
- Having trained employees will increase efficiency and productivity, reduce downtime and improve the profitability of your company.
- Providing trained employees shows your customers that safety and training are a top priority for employees or operators you dispatch to do their jobs.
